To whom it may concern:

On behalf of the Mayor and Council of the City of Cleveland, please accept this letter of recommendation for Griffin Brothers, Inc.

Griffin Brothers, Inc. has been the lead contractor on several city infrastructure projects. The company began working with the city in 2007 on a multi-million-dollar sewer line project. The Griffin Team is very efficient and professional. The team is very conscious of city specifications and guidelines. The professionalism shown with the city prompted the contractors and developers of the \$27 million dollar Babyland General Hospital project to contact Griffin to work on their new facility.

The city has called on Griffin Brothers, Inc., through the years, to install additional water and sewer lines. Currently, the city is working with Griffin Brothers, Inc. on a federal, state, and local funded sewer line project. The staff at Griffin is very diligent in completing all the required paperwork in the proper timelines.

The city will continue to call on Griffin Brothers for infrastructure projects.

Sincerely,

Connie Tracas
City Clerk
